Poly Prep Fathers Hear Headmaster Denounce Reds

Branding the world Communist movement not only as an aggressive and expanding power but also as a ruthless and unmoral force, Poly Prep Headmaster J. Folwell Scull Jr. last night pledged Poly to the heritage of democracy. Addressing Poly fathers and teachers at the 31st annual Fathers' Dinner, he said, "Confronted as we all are with the threat of world communism, I think this is an appropriate time for us to stand up and be counted among those dedicated to the democratic way of life."

A philosophy without moral value and without regard for legislative procedures, communism is completely foreign to our way of life, Scull pointed out. "We welcome the opportunity to discuss the Communist philosophy in our classes," he added, "in order that our boys can know what it is all about and not be persuaded by some prejudiced and misguided individual that communism is the answer to all our problems."

Book Lore Not Enough
He went on to show that every individual must assume obligations in his community, and that book learning alone does not provide the techniques. "We at Poly do not feel that a man is doing justice to himself or to his country if he is satisfied with just earning his bread and butter," he said. "He should not sit back and watch the rest of the world go by. It seems to me that one of the first steps in accepting one's responsibilities in the community is to develop an understanding of and tolerance toward one's fellow man, qualities that must be practiced both in the home and in the school."

Air Pilot Gets Year For Possession of 2 Machine Guns

Frank A. Cassil Jr., an airline pilot, was sentenced to serve a year and a day in a Federal Penitentiary by Judge Robert A. Inch in Brooklyn Federal Court yesterday on his plea of guilty Nov. 21 to a charge of illegal possession of four machine guns.

Cassil was arrested after his wife, Winifred, complained last July 20 that she was afraid of the guns, which were stored in their home on Conklin Ave., Wyandanch. Police found a number of automatic pistols and a quantity of ammunition. In addition to the machine guns, Cassil explained that he was a collector of weapons. The Alcohol Tax Unit of the Treasury Department has jurisdiction over registration of machine guns.
